SFunit.com

Specialized Forensic Unit LLC is a private nongovernmental organization, providing psychological evaluations in Illinois and Wisconsin. We provide thorough, timely, research-based evaluations, specifically tailored to answer referral questions that courts, attorneys, correctional facilities, or patients may have. Psychological assessment services are conducted in a professional and sensitive manner. The main goal of our agency is to provide the most objective and unbiased assessment, which outlines client's current treatment needs and protective factors.

We strive to provide the most representative evaluations, using the latest psychological measures and recent research advances in the field.

We provide services to adults and juveniles. These services include examinations for forensic and clinical purposes. We do not provide psychotherapy services but referrals can be provided upon request.
